DURBIN

Might Be Compelled To Surrender Taylor and Finley.

Ralph Gregory, the leading criminal lawyer of Northeastern Indiana, has unhesitatingly stated that he put in force, will compel Gov. Durbin to surrender to the Kentucky authorities the persons of Gov. Taylor and former Secretary of State Finley.

The statute is embodied in Burns' Revision of 1901; Sections 1674 b and 1675.

It is specified that whenever one who shall have been indicted for a criminal offense in any state of the Union is within the borders of Indiana, any one may cause a justice of the peace or before the Circuit Court and swear out a warrant for the arrest of the person so charged; that after the Governor of the State of Indiana has been notified of such warrant he shall cause the arrest of such individual and then notify the Governor of the Commonwealth in which the crime has been committed and surrender such individual to the accredited officers of said Commonwealth.

Under this statute Gov. Durbin would have no choice but to surrender to the Kentucky authorities the persons of Taylor and Finley. Mr. Gregory has called the attention of a number of leading lawyers of Delaware county to the statute and they all agree that it exactly fits the case of Taylor and Finley. The reason that this statute has hitherto escaped notice is that it is indexed improperly in the revision.

Would Fight.

James H. Hayes, the negro who has been retained by the negroes of Virginia to test the Disfranchisement Laws of Virginia, made a very inflammatory speech at a meeting of the Afro-American Council, recently held in Richmond. Among other things, he said: "There is nothing in Virginia for the negro degradation, unless the negroes make a firm stand, contend for their rights, and, if necessary, die for them. I am not an anarchist, and I don't mean to go out and kill anybody, but to let somebody else kill you." This veiled speech provoked loud applause and laughter. In Virginia you are Jim Crow. You opened the meeting to night singing 'My Country, 'Tis of thee,' but I wonder how negroes sing that song. For myself, I am a man without a country. The me has come when the negro must fight, not theoretically, but fight with his hands. The disfranchisement for the children of Israel has been followed either for letter by a disfranchisement in the South." Exchange.

Not Alone.

Louisville is the cleanest city this side of Jefferson. During the busy season a man can go anywhere in the city, provided he has a canoe or a ferry-boat. The mud never goes more than two or three inches deep on the streets. We certainly ought to congratulate ourselves on having such clean streets. Were it not for our brilliant street lights, which can be seen thirty or forty feet away, pedestrians might fall into a pond of water and be suddenly drowned. We are having prosperous times, so that the tax-eaters might levy a few more cents for street cleaning, and still have the tax-payers able to pay their taxes, provided they live economically.

There are other cities with streets just like ours.

True charity begins at home, but doesn't end there.

THE PLAN

For Democratic Primary Adopted by Committee.

The following is the call for Democratic primary on May 9, which was issued Saturday by the Democratic State Executive Committee: To the Democratic Executive Committee: Your subcommittee appointed to arrange for the details of the primary election, called for the purpose of nominating Democratic candidates for all State offices to be held at the November election, 1903, would most respectfully report as follows.

First—That a primary election be held for the purpose above designated in each and every voting precinct throughout the Commonwealth on the 9th day of May, 1903, between the hours of 8 a. m. and 4 p. m., standard time, and that said election be held under the State primary election law.

Second—That in said primary all known Democrats of lawful age, and all Democratic youths who will be of lawful age on the 3d day of November, 1903, shall be entitled to vote.

Third—That in cities where registration is required the registration used at the last general election shall be used in this primary, and all those registered as Democrats shall be entitled to vote in this primary, and in addition to those registered all Democrats residing in the precinct, who for any cause failed to register at the last general registration, and all Democrats who have moved into the precinct since the last registration, and all Democratic youths who will be of lawful age on November 3, 1903, shall be entitled to register with the officers of the election in their respective districts, and upon taking an oath that they will be legal voters in said precinct at the November election, 1903, shall be entitled to vote in this primary, and the officers of election in each precinct in cities where registration is required shall preserve the record of all voters who have registered with them as above provided.

Fourth—That the officers of election shall be appointed by the Democratic County Committee through out the Commonwealth, and shall in each county be apportioned among the contesting candidates as nearly equal as can be done. In case the local committee in any county fails or refuses to act and appoint the officers of election as above provided, or in the event that complaint is made to this committee that the officers of election as appointed by the said local County Committee are not apportioned among the contesting candidates as above provided, or are not suitable or fair officers, then this committee has the right to hear and determine said complaint, and if it is well founded, then this committee has the right to take charge of and appoint the officers of election in all such counties where the local Democratic Committee fails or refuses to act, or where complaint made is found to be well founded, and appoint the officers of election as above provided.

Fifth—That upon the application to the local County Committee by any candidate or his friends, he shall be permitted to have a challenge at the polls in each precinct, and an inspector of the count of the ballots in each precinct in said county; but said committee shall not be required to appoint more than five inspectors of the count for any one precinct.

Sixth—It shall be the duty of the officers of election in each and every voting precinct throughout the State, at the close of the polls, to

count the ballots cast in their respective precincts, and to certify to the Democratic County Committee of their county the result of the vote in detail, giving to each candidate the number of votes received by him in their precinct and to transmit with their certificate and the ballots stubs, all questioned ballots as the law directs, to the County Committee.

Seventh—It shall be the duty of the Democratic County Committee to meet at the county seat in their respective counties on the 12th day of May, 1903, and tabulate the result of the election in their respective counties as certified by the officers of election in the various voting precincts in their county, and to pass upon all questioned ballots returned to them by the precinct officers, and to certify to the chairman of the Democratic Committee at Frankfort, Ky., the number of votes cast in their respective counties for each candidate for office before said primary not later than May 20, 1903.

Eighth—It shall be the duty of the Democratic Executive Committee to meet in Frankfort, Ky., on the 30th day of May, 1903, and tabulate the result of the election in the various counties for the various offices as certified by the local Democratic County Committees, and to declare that candidate receiving the highest number of votes cast for the office for which he is candidate, the Democratic nominee for that office, and to certify the same to the Secretary of State, as the law directs.

Ninth—It shall be the duty of the precinct officers of election to preserve the ballots and to transmit them to the County Democratic Committee of their respective counties, to be preserved by them, as the law directs.

Tenth—The County Committees shall appoint the officers of election herein provided for, not less than twenty days before the date of the election, and shall cause a list of same to be published in a newspaper of general circulation in their counties not later than the week following their appointment, if such newspaper is published therein, and to have them properly notified of their appointment as such, as the law directs. If the local committees fail or refuse to make the appointments by the time fixed herein, then this committee shall at once make such appointments and shall cause the same to be published, and the officers of election notified as above directed.

Eleventh—All Democrats desiring to become candidates for State offices before said primary shall in writing notify the chairman of this committee of such intentions, and shall state in such written notice the office for which he desires to be a candidate, not later than April 1, 1903, and upon the receipt of such notice it shall be the duty of the chairman to at once notify the candidate of the assessment he is required to pay in order to entitle him to have his name placed upon the ballot as a candidate for the office to which he aspires, and in the event of failure or refusal of any one desiring to become a candidate before said primary, to make known such intention or desire on or before the date above designated, and to pay the assessment assessed against him as above provided, on or before the 9th day of April, 1903, then the name of such candidate shall not be printed upon the ballot. The assessment for the various offices is fixed as follows:

For office of Governor . . . \$2,500
For the office of Lieut. Gov. . . 600
For the office of Att'y. Gen'l. . . 1,800
For the office of Auditor . . . 2,200
For the office of Sec'y of State . . 1,800
For the office of Treasurer . . 1,900
For the office of Superintendent

THERE IS NO SUBSTITUTE

For the office of Clerk of the Court of Appeals . . . 1,800
For the office of Commissioner of Agriculture . . . 1,700
Total . . . \$12,000

In the event that a candidate for any office above named should have no opposition, then he is required to pay the entire assessment fixed for that office; and in the event there is more than one candidate for any of the above named offices, the assessment for that particular office is to be equally apportioned among the candidates for such office, i. e., if there is only one candidate for any given office, say that of Treasurer, then he shall be assessed the full \$1,800, and in the event there are two candidates, they shall each be assessed \$900, and in the event there are three candidates, they shall each be assessed \$600, and so on. In the event there is a surplus remaining after defraying all expenses of said primary, it shall be returned to those by whom it was paid, in the same proportion in which it was paid by them, and in the event the expenses of said primary are greater than \$16,000, then the excess thereof over and above said sum is to be paid by the successful candidates in the same proportion in which they were assessed, and it is the duty of the Local County Committee in each county to certify to the chairman of the State Central and Executive Committees at the same time that the official vote of the county is certified, the cost of said primary in their respective counties.

Twelfth—As necessity may arise, subcommittee is authorized to adopt such rules and regulations and do all acts and things as from time to time may become necessary, to insure the faithful and fair conduct of said primary, not inconsistent with the primary election law of this State or with the report here submitted.

Thirteenth—Before entering upon the discharge of their duties the officers of election shall be sworn as the law directs, and their duties and responsibilities shall be precisely the same as those of legally appointed and regularly qualified officers of regular State elections.

Fourteenth—As the present party organization was chosen in 1900 for four years, it is the sense of this committee that no convention need be held during this year, and that the party organization, as at present constituted should stand till the convention is called to send delegates to the National Convention in 1904.

Fifteenth—That a copy of this report shall be printed and posted at the court house door in each county in this Commonwealth and that at least twenty copies shall be furnished to the local County Committees in each county in the Commonwealth, to be posted by them in their respective counties, not less than forty days before the date of said primary, to-wit: May 9, 1903. That all Democratic and other newspapers throughout the State who will publish the same are requested to do so, in order that this primary shall be given as much publicity as possible.

THE RAMBLER.

Wise and Otherwise, Mostly Otherwise.

Heard, Remembered, Stolen.

SO THEY SAY.

A young man in this city one day, Was very suspiciously gay; There are people who think He was given to drink, But the fact is it's only his way.

An Ohio newspaper has alluded to that State as the "incubator of Presidents." But it must be remembered that nearly every incubator hatch contains a large number of spoiled eggs.

The report comes from Indian Territory that the local option law there is rigidly enforced, and not one nip of "sidewaho" can be obtained for boozing purposes. In fact it's so "dry" that the frogs can't croak, and the farmers have to soak their swine in the creek twenty-four hours before they will hold slop.

The other morning we went to the restaurant to order breakfast. As we entered we noticed a gentleman sitting at the table who seemed to be meditating as to what he would tell the waiter to bring him. Presently we introduced ourselves as "Mr. Rambler." We learned the dusky gentleman was from an Eastern Ky. county.

"Mr. Rambler," he said, "you fellows haint goin' to hav' a circus show in town any ways soon are you?"

"None that I have heard of," we answered.

"When did the last circus-show show here?"

"Some time ago."

"How long 'go'?"

"I don't remember the date."

"What was hit's name?"

"The World-Famed Amalgamated Association of Unoppositeated Snake Eaters."

"O yes!" nodding his head, "I seed them air here in town once durin' the road fair. They shor et'em."

At this juncture the waiter rushed up and handed "Mr. Man" the bill of fare. It happened that Dan had leased the off-side of it to a local carriage dealer who placed an "ad" thereon, with illustrations. "Mr. Man" sat at the table. The waiter, being in a hurry, by mistake passed the bill with the "ad" side up. "Mr. Man" saw the wheels, put on his spectacles, curled his mustache with his left finger, straightened up, looked at the waiter and said:

"If I'll take scrambled eggs, a Bangor buggy, a couple of runabouts and a road cart. Got any wheelbarrows?"

The waiter flew, and Mr. Rambler disappeared.

THE PUZZLE.—We are asked most every day, "When you going to insert that puzzle?" Well, we will present it just as soon as we can get it in shape. The picture artist, in placing the objects, got them somewhat mixed, so we are now waiting on him to make the proper corrections.

One of our readers grew so impatient over the puzzle that she could not restrain from reminding us in the following brief note:

"Dear Mr. Rambler:—You ask some one to find the picture puzzle. I found a horse, so thought I would send my guess."

We do not understand the meaning. Perhaps the person was attacked by a "nightmare," as the mind seems to have been running in a horse strain.

Song of The Coal Barons.

By M. A. CUSHMAN.

STAVE them and freeze them, it does them good,
By hunger and cold are the straggle and shroud;
The miners will fall without fire or food.
We will show them the rule of the land,
So close the churches, dismiss the schools;
We need not their training among our folk,
They work for Us, and the greater folk,
The harder will they stand.

CHORUS.
They are all God's children, you say?
What then?
He did not make Us, we are self-made men;
And we worship our maker still.

Let the poor freeze. When the strike was on,
'My help the men when their food was gone,
Our men, whose living we held in pawn;
They, indeed, claim their own.

The earth and fallowen there is it?
It might be so in one, but the question is:
Who in possession? Answer for the men
We think you are getting your fill.

CHORUS.
The old and feeble are dying fast,
Well, let them die; their use is past.
There are plenty of young strong men to last
As long as we want their work.

But the babies die also? Oh, never fear;
We can import them—a million a year;
Crazier by far than to raise them here,
And it lessens the wage-paid.

CHORUS.
Don't we fear G-d's judgments? You should
We fear?
We have named ourselves His stewards here;
We own the churches, and it is He that
He sanctions all we do?

As at the last, when the race was won,
When we've seized on everything under the sun
We can build libraries—it has been done;
And endow colleges, too.

CHORUS.
They are all God's children, you say?
What then?
He didn't make Us, we are self-made men,
And we worship our maker still.

The Public.

Hanged By Their Own Rope.

The insincerity of the Republicans leaders in Congress, regarding the trust question, was cleverly exposed recently by Congressman Sulzer, of New York. It was in connection with the cabinet department of commerce and labor. Labor organizations have long been trying to secure a labor secretary in the President's cabinet. This the Republicans are unwilling to concede. But as the matter is pressed and bids fair to divert the labor vote, they have cooked up a bill providing for a cabinet secretary of "commerce and labor." Obviously this secretary is to be a "business" man. The commercial interests would not tolerate a "labor" man for such a post. Consequently the "labor" interests will be looked after under the "commerce and labor" bill by "business" leaders. Over this happy adjustment of conflicting industrial interests, the Republicans are boasting about their practical demonstrations of love for the dear "laboring man." But in framing their "commerce and labor" bill they have conveniently omitted to provide for any check upon trusts, a subject over which the contemplated cabinet officer might reasonably be expected to have jurisdiction. Not a line gives any indication of a disposition to "shackle cunning," though the bill is a highly appropriate one for that purpose. Even the favorite administration idea of "publicity" is ignored. Therefore Mr. Sulzer moved as an amendment that there be in the proposed department a bureau of corporations to which every corporation doing an interstate business should be required to make reports of its condition. Though there was no objection from the Republican side of the House, either to the character or the form of the amendment, every Republican voted against it. Their reasons were not stated, but the inference is strong that while they do much talking about "publicity" and "shackling," they are under such peculiar obligations to the powerful trusts that they dare not take hostile action of any kind, not even of the kind they profess to advocate. Mr. Sulzer has now put the matter in such shape upon the record that no other inference is possible to the public.

PROFIT

The matter of feed is of tremendous importance to the farmer. Wrong feeding is loss. Right feeding is profit.

The up-to-date farmer knows what to feed his cows to get the most milk, his pigs to get the most pork, his hens to get the most eggs. Science.

But how about the children? Are they fed according to science, a bone food if bones are soft and undeveloped, a flesh and muscle food if they are thin and weak and a blood food if there is anemia?

Federal Court's Cannot Interfere in State or Local Elections.

At Cincinnati the United States Court of Appeals handed down an opinion on Feb. 8, reversing Judge Evans in the case of L. Karem, the Louisville man convicted of interfering with an election. In consequence of the finding of the higher court Karem will go free of punishment, it being held that Judge Evans was wrong in ruling that the alleged offense was within the bounds of the fifteenth amendment.

Judge Lorton read the finding, which was to the effect that the fifteenth amendment, designed to prevent the interference with colored men voting, is applicable only to elections of Federal officers, and that it may be construed to apply to States themselves when, as Commonwealths, they take action directed against the suffrage of the colored voters. It held that the race in question, the Goebel-Taylor struggle of 1899, was purely a State contest and hence that the fifteenth amendment to the Constitution could not be brought to where one voter coerced another in a race of no national connection, the court said there was no means of trial under the fifteenth amendment.

Karem was a Democratic officer at the election. He was arrested by a Deputy Marshal on the charge that he prevented several negroes from casting their ballots. Karem was convicted and Judge Evans inflicted a sentence of \$600 fine and three months in jail.

The opinion of the United States Court of Appeals is of more than ordinary interest. It will serve as a precedent for such cases in the future. The point has long been in dispute as to whether the Federal Court had jurisdiction over offenses of purely local character, and yesterday's ruling appears to dispose of the contention.

The Shepherd's Way.

A little lamb one afternoon
Had from the fold departed;
The tender shepherd missed it soon
And sought it in vain.
Not all the flock that shared his love
Could from the search delay him,
Nor clouds of midnight darkness move,
Nor fear of suffering stay him.
But night and day he went his way
In sorrow till he found it;
And, when he saw it fainting lie,
He clasped his arms around it;
Then safely folded to his breast,
From every ill to save it,
He brought it to his home of rest,
And pitied and forgave it,
And thus the Savior will receive
The little ones who love him;

Then come, ye little ones,
And let them get you near him;
Bless while they live, and when they die,
When flesh and spirit sever,
Conduct them to his throne on high,
To dwell with him forever.

Price of Butter Goes Down.

At Louisville the butter market declined sharply last week. Eggs creamery is down three cents a pound, being sold by wholesale at 27 1/2 cents in sixty-pound tubs, 28 cents in 30-pound tubs and 28 1/2 for pound prints. Country butter is 15 1/2 very large supply and much easier, being 14 to 15c for the packing kinds and 16 to 17c for rolls. These are wholesale prices. Eggs were very weak and difficult to sell to the trade at 22 cents per dozen.

Want General Crusade Conducted Throughout the State.

A formal appeal to the ministers of Kentucky to devote last Sunday's sermons to a discussion of the prevalence of crime was issued by a special committee of local pastors.

The call to each of the ministers in Louisville is as follows:

"Dear Brother: Will you not join us in a popular movement to arouse the civic conscience of our city to the alarming state of affairs at present existing among us, and especially to the terrible and frequent violation of the Sixth Commandment? Try to get citizens who are interested to take part, if preferable. Make any arrangement with your fellow ministers which may seem to you wise and necessary, but be sure to join us in this emergency and give us the benefit of your prayers and endeavors toward the cleansing and uplifting of our civil life.

"Committee."

The petition to preachers at large is the outcome of the meeting of the Louisville Ministerial Association Monday, January 26.

The call is as follows: "To Ministers of All Churches in Kentucky—Dear Brethren: Will you not join with us next Sunday, February 8th, in a moral crusade against the prevalence of crime in our State? The terrible epidemic of murder which is daily deluging our Commonwealth with human blood ought to be an immediate and compelling motive to action. 'The blood of our brother crieth to us from the ground.' Here in the city of Louisville men are shot down upon the slightest provocation by armed and drunken bullies, who are just sober enough to know that the law will probably furnish some loophole for their escape. The criminal classes have the upper hand in this community, and things are going from bad to worse. And this is the case largely all over the State."

Rich Mineral Find on Farm Lands Near Millersburg.

Lead has been found on the farm of John F. Caldwell and John R. Taylor and Robert Miers. Cincinnati Capitalists were at Millersburg and negotiated for the mineral rights on these three farms. Two weeks ago a very fine vein was discovered on the farm of John Purdy, about three miles distant from the above farms. Chicago capitalists are after this lease.

Incorporation Articles Filed.

Incorporation articles were filed in the office of the Secretary of State at Frankfort, Feb. 4th, as follows:

Kentucky and Oklahoma Land Company, of Fayette county, with \$40,000 capital.
J. M. Pringle Co., of Fayette, with \$10,000 capital.

Amended articles were filed by the Magellan Oil and Gas Company, increasing its capital from \$1,000 to \$2,000, and by the R. M. Martin Co., of Louisville, increasing from \$10,000 to \$20,000.

Get Children Started Right

Measles, scarlet fever, mumps and whooping cough are universally prevalent.

With all these, the disease itself is often trivial, but the after effects are very serious.

Close observers say that one-half the people suffer from eye trouble (result of measles), or bronchial, ear, or kidney trouble (result of other diseases of childhood).

Now a child in robust health will throw off these diseases. A weak ailing child will probably suffer all its life.

We have just the medicine for puny, ailing children. It is Vinol. It is pleasant to take, it is free from dangerous drugs, it is nourishing and gently tonic, it helps the food to digest and gives strength.

It has been used in this town with great success when children were slow in getting over whooping cough and measles.

It seems to give them a start, and they become bright and healthy. Used with Vinolax, the bowel regulator, it is safe and sure, both for ailing children and burdened mothers. Take home a bottle on our guarantee of money back if it's not good. Don't let your little ones remain weak and ailing.

Pension for Mrs. Sampson.

A pension of \$30 a month was recently granted to the widow of Admiral W. T. Sampson. The medical record given in issuing this pension shows that he was affected with aphasia, a disease due to cerebral trouble, as early as 1897—before the war with Spain.

Mr. G. M. Myers, the well-known shoemaker of Winchester avenue and 14th street, Ashland, Ky., says: "Doan's Kidney Pills are like true friends, the longer you know them the better they are appreciated. I can add nothing to the statement I first made in 1896 after I procured the remedy at the Ventura Drug Co., and took a course of the treatment, which cured me. I was absolutely free from all backache for nearly three years, then I noticed a slight ache, as the result of a cold, in my back. A box of Doan's Kidney Pills disposed of it. I have recommended this remedy to many, and have never heard of one who did not endorse the claims made for it."

Union for Mrs. Sampson.

The land-leasing bill was introduced in the Senate by Senator Millard, of Nebraska, and in the House by Congressman Bowersock, of Kansas, and if passed by Congress will effectively perpetuate the hold the cattle barons have on the Government lands of the West, on their own terms.

Two New Stat. s.

The farmers of every State in the Union are directly interested in opposing the bills now before Congress, for they cannot compete with the price that beef cattle, sheep and wool can be produced in large herds on land for which no rent or interest is paid and upon which no taxes are assessed.

In the past the free range for cattle on the public lands was participated in by all droves, great or small, but in the last few years the large cattle companies have fenced in vast tracts of the public land and have therefore monopolized its use. The homestead seeker has during this time been gradually encroaching more and more on this public domain that the cattle barons have come to look upon as their own, and the result is the conflict now before the public and Congress.

CATTLE BARONS

To Lease Government Land—Settlers Deprived of Rights.

The cattle barons appear to have friends at court who are helping them to perpetuate their monopoly of the Government lands in the Western States. A special dispatch from Omaha to the Washington Post says:

"The land-leasing bill, as now constructed was introduced into the Senate and House at the last session of Congress. Its advent created a furor of indignation in the Western States, and its effect on the approaching elections was the cause of the laying aside of the measure. Opponents of the measure denounce it as a glaring attempt to create a land monopoly in the Western States."

"It is proposed to lease for a period not exceeding 20 years any Government land remaining unapplied for, at the rate of from one to six cents an acre per annum. The proposition on its face means the acquiring of a revenue by the Government from lands now unoccupied and seemingly worthless. The reality, it is claimed, will be an increasing annual draft on the Federal Treasury for cost of collection, the establishment of a large number of new fat offices, the control of immense areas of Western land, and the consequent prevention of settlement by industrious individuals, by a few great cattle and sheep-raising corporations, and the consequent absolute and unrestricted control of prices of meats by the land monopoly."

The dispatch further says:

"Col. Mosby was rapidly informing the public of the actual facts when he was recalled."

As Col. Mosby was the special agent of the land department at Washington, and had been given orders to remove the wire fences the cattle barons had erected, his recall must mean that the administration has given up its fight against the cattle men.

The land-leasing bill was introduced in the Senate by Senator Millard, of Nebraska, and in the House by Congressman Bowersock, of Kansas, and if passed by Congress will effectively perpetuate the hold the cattle barons have on the Government lands of the West, on their own terms.

The farmers of every State in the Union are directly interested in opposing the bills now before Congress, for they cannot compete with the price that beef cattle, sheep and wool can be produced in large herds on land for which no rent or interest is paid and upon which no taxes are assessed.

In the past the free range for cattle on the public lands was participated in by all droves, great or small, but in the last few years the large cattle companies have fenced in vast tracts of the public land and have therefore monopolized its use. The homestead seeker has during this time been gradually encroaching more and more on this public domain that the cattle barons have come to look upon as their own, and the result is the conflict now before the public and Congress.

The leasing of these public lands at the rate of from one to six cents an acre, or an average of three cents, is out of all proportion to their value, and the collection will cost more than the Government will receive. There will be no protection for homesteaders, for the cattle barons would lease all the lands adjoining his homestead and shut him off from free range for his cattle and perhaps access to the rivers and streams, which are few and far apart on the plains.

The policy of the Government from the first has been to reserve the public lands for those who wish to make homes upon them, and its reversal by the present administration, in the interest of the cattle barons, should be denounced by all. Senators and Congressmen should be written to, demanding that the honest settler be protected and the cattle barons' fences be removed so that all can have free access to the public domain.

A PARABLE.

For the Public.

In the early springtime a certain man, whose name was Labor, planted seeds of grain in a field, the name of which was Opportunity.

Then Nature, who was Labor's mother, sent sunshine and warmth, the rain and the dew, and behold, the seeds sent forth tiny shoots, and the man Labor was exceeding glad.

The growing plants he nourished tenderly, like unto his own children; and in their youth he christened them Wealth and Capital.

Now, when another moon had passed, behold, certain strange plants grew in the field of Opportunity, and their name was Monopoly plants, though the man knew it not. For when the man Labor was a little fellow he went with other little fellows to a certain Rocky Feller's school, in which great and wise men taught the little fellows many strange and wondrous things.

Now it happened the wise men lived on Monopoly plants, and the great man who built the school—be, too, lived on the same strange food; and the Monopoly plants lived on the plants of Wealth and the Capital plants which the man Labor had planted.

So the wise men fooled the little feller, and taught them to call all plants in the field Opportunity, Wealth and Capital plants.

And it came to pass that to save his little soul that little feller knew not a Monopoly weed from a Capital plant. So when the man Labor beheld the Monopoly plants, which he had not planted, thriving among the Capital plants which he had planted, he was again exceeding glad.

Now it happened the Monopoly plants could not grow up into the sunshine without the help of the Capital plants; so the man Labor wound a Monopoly creeper round every Capital plant, and went away exceeding glad.

With another moon came again the man Labor to gather of the fruit of his labor; and behold, there was no fruit to gather, for the plants Monopoly had taken unto themselves the juices of the plants Wealth and Capital.

Now the man was filled with a great hate for Monopoly plants, and he cursed the wise men of his youth with a great curse, because they taught him all plants in the field of Opportunity were Capital plants. And he went with a great hoe into the field to cut down the strange plants which had eaten of the fruit of his labor.

The blindness of anger was upon the man Labor; and, behold, when the anger was gone, the Monopoly plants and the Capital plants were gone also, and there was no fruit for anyone.

Then the man Labor went away and thought a long think.

Mr. Richardson has an unusual record. Since he has been 21 years of age he has attended every precinct, county, district, State and National Democratic convention.

Hon. Morgan Chinn, candidate for Clerk of the Court of Appeals, was about the headquarters Saturday, as was also Judge S. W. Hager, of Boyd, candidate for Auditor. Other candidates signify their intention to come. On Monday Dr. J. M. Frazer, of Mayville, gave his official announcement to the Primary Committee as a candidate for Commissioner of Agriculture.

Chairman Young and Secretary Sentz are very busy bringing about the most acceptable plans. They have been encouraged to believe that but few of the election officers will make any charges for their services.

Six Farms For Sale.

Robert C. Gatewood and Pierce Winn having been selected agents of the heirs of the F. M. Ewing estate will on Thursday, the 26th, and Friday, the 27th of February, sell to the highest bidder, about 116 acres of choice farming lands in six tracts.

The Hamilton farm, 3 1/2 miles from Mt. Sterling, is in bluegrass and meadow, contains about 364 acres and is 1/2 mile from C. & O. depot. This is a choice farm, one of the best in the State. U. S. mail is brought to the door.

The Trubbs farm with 328 acres is another extra good farm. Every foot of which is tobacco land. This is largely in bluegrass and is only five miles from Mt. Sterling on the Owingsville and Mt. Sterling turnpike. U. S. mail delivered free.

In the same neighborhood on same place is another choice farm containing 100 acres. It is in bluegrass and clover and is only two miles from Owingsville station.

U. S. Mail Rural Delivery is another convenience.

The Harper farm contains 150 acres and is 3 1/2 miles from Mt. Sterling and is in bluegrass with good residence, stock barn and an abundance of fine water.

The Howard Mill farm is also 3 1/2 miles from Mt. Sterling and is on the Howards Mill pike, and contains about 115 acres. It is in bluegrass with tenant house, stock barn and abundance of good water. These farms are well fenced.

On Friday the Forge Hill farm, in Bath county, containing about 160 acres, will be sold. It is 18 miles from Owingsville, has good brick dwelling, with porches and basement, stock barn, carriage house, etc. it is well improved and all but 50 acres in bluegrass. This farm is within the Ragland oil district and in fact oil and gas indications are good for all or most of it.

Mr. Ewing had selected and purchased these lands because of their real value, believing he had as fine a body of lands as there is in Kentucky and now on the market they afford to parties desiring to invest in lands a rare opportunity. We call attention to the advertisement in another column and by bills.

H. C. Gillaspie, of Wades Mill, Clark Co., formerly of this county, is a candidate for Democratic nomination for Legislature. He is a worthy citizen and if nominated and elected will do what he thinks right.

Caleb Ratliff, of Bath county, has purchased a lot at Salt Lick and will at once begin the erection of a large hotel.

ONWARD AND UPWARD.

Push. Pluck. Energy and Enterprise.

If you would have your town on a move, see to it that you have in each branch of business live men. That they are of one mind for self and the city. Such men we must have. With their advanced business methods come railroads, factories, schools, every thing that would make your place to move on and up. In the connection of enterprise we delight to mention the firm of Walsh Bros., clothiers and men's furnishings. The family have been tailors and clothiers from the beginning and their pedigree bears out the idea of inherited gifts at the trotter's pedigree that he has been bred for speed. Walsh Bros. books for 1902 have been closed and show the most successful year in their business period of eighteen years, and their sale books give evidence of much trade drawn here from adjoining counties by their continuous efforts and magnificent line of goods, which facts are appreciated by our business people generally. Their preparations for the approaching season is far ahead of any in the past and Walsh Bros. will continue to add thousands of dollars to our business, thereby filling our city with such people as these and there will be no more knocking, business will not stagnate and Mt. Sterling will continue to be the best business town to the square foot in Kentucky.

Unification of Churches Can Be Effected.

The Rev. J. Kinsey Smith, pastor of the Fourth-avenue Presbyterian church, Louisville, preached on the "Union of the Churches From a Presbyterian Point of View" on Sunday night, Jan. 25. He called attention to the tendency in America of churches of the same denomination to get together. He rejoices in the spirit of Christian unity that is "in the air." I may be pardoned if, from a Presbyterian pulpit, I venture to say that the Presbyterians will have to be considered, consulted and heard before this programme of proposed denominational unification can be carried out.

PRESBYTERIAN FAITH.

It would not be possible for the Presbyterian body to enter into any alliance or federation of churches in which these five constituent principles were not mutually accepted.

First—The Bible as the Word of God.

Second—The deity of Jesus Christ.

Third—The fundamental doctrines of the apostle's creed.

Fourth—Christian life and experience as a spiritual and pencestral fact as distinguished from a purely ethical and moral experience.

Fifth—A large liberty in the matter of the government, discipline and worship of the several churches constituting this federative organization.

Presbyterians, could not work in any sort of corporate harmony with any body of Christians which does not accept the Scriptures as the inspired word of God. The Bible is the only charter and constitution of our church. It stands far above our Westminster Confession, our Presbyteries, Synods and Assemblies, and is for us our highest and final court of appeal.

We could not and would not go into any sort of ecclesiastical alliance with any set of persons, however morally well reputed, who would not be willing to accept as the primary basis of union the Bible, and the whole Bible, as the very authentic mind and purpose of the God of Revelation and Redemption.

Our denomination would demand as one of its most essential dogmas the deity of Jesus Christ. Jesus Christ is for us as He is and has always been to the greater part of the historic church—the God-Man.

The very lowest minimum of dogma which would content the churches with which our own is most closely co-ordinated is that contained in the Apostles' creed. To attempt to build a consolidated church on foundations less secure than this would be to build on quicksand.

Again, whatever system of ecclesiastical reconciliation and comprehension may be devised by the future must include, if our church is to be counted in it, the recognition of a sacramental and pencestral basis to Christian life and experience. We could feel at home in no organization in which we did not breathe in a common atmosphere of spiritual life. The two essential sacraments of baptism and the Lord's supper must be carried over into the larger church, and with these the doctrine of the supernatural character of Christian experience. The church is not one ethical association, held together by a human sentiment; it is a living, divine body, separated from the life of the world, and constituting a community whose citizenship is in heaven.

Once more, it would require a very large latitude of mutual concession and individual right in matters of government, ritual and discipline in order to arrange any satisfactory or working scheme of corporate union. When Episcopalians are willing to give up the historic episcopate, and Methodists their itinerancy, and Baptists immersion and close communion, and Congregationalists their independ-

ency, and Presbyterians the parity of the ministerial office, we shall be able to discuss that more composite modus operandi in which the united church shall carry out its worship, discipline and work and of which for the present it would be impossible to find the basis of executive and administrative unity as to find a working basis for the political unity of the nations of the world. And the only possible way in which this scheme of ecclesiastical centralization could be to all accomplished would be to allow each present denomination to adhere to its own methods of self-expression and its own forms of devotion, which would leave them practically just where they are today.

Insurance Companies Rebuked.

Mayor Duncan, of Lexington, has issued a public letter in which he appeals to the City Council to take some steps to protect the people of Lexington from the extortionate rates imposed by the fire insurance companies doing business in that city. He says that the increase in rates has ranged from 33 to about 330 per cent. The situation must be serious. About thirteen months ago there was an advance in this city of about 25 per cent, then in June there was another big advance, bringing the rate of 13 months ago from \$15.50 on certain risks to more than \$31. A protest reduced some risks from above \$31 to \$25.

Take Warning.

Senator Wellington on Saturday introduced an amendment to the constitution prohibiting the holding of a fortune exceeding \$10,000,000 by any one individual in the United States. In case of such holding the amendment provides that the excess shall be condemned, whether or not as a public nuisance, public folly, or a public peril, and be accordingly forfeited to the United States treasury.

But fortunately the Boy did not hear this, and the lesson of thrift and industry sank deep into his heart.—Life.

THEFORD'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and lower bowels, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The Ford's Black-Draught never fails to loosen the disordered liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Ford's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than The Ford's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

2d Edition, 5c. March 10, 1901. I have used The Ford's Black-Draught for three years and have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.
